## **Addison Scholarship Operational Procedures**

The Lena Addison scholarship program is intended to be different from other scholarships awarded to Mt. Vernon Senior High School graduates. In particular,

- Funds available to a single student may exceed \$10,000.
- Scholarship funds will be paid directly to the school in one lump sum, with that school's financial aid department administering the payment for tuition, fees, books, and room and board.
- Selection of the recipient focuses more on potential and motivation than scholastic achievement, as referenced by the Selection Criteria. In addition, only a single letter of reference is required, which forces applicants to be more selective in their reference materials.

### Selection

Selection of the recipients will be based on Selection Criteria outlined above. The MSD of Mt. Vernon Scholarship Committee will make final selection of scholarship winners, along with alternates. The Scholarship Committee will notify the Trustees of the Lena Addison Trust of these recipients and alternate names, with notification to be made in writing prior to June 1 of each school year.

The MSD Scholarship Committee is structured so that in the event that a committee member is related to or holds special interest in one or more scholarship applicants, that committee member is excused from duty for that year and will not serve on the committee for that school year.

### Payment

Students receiving Addison Scholarship funds will do so through the financial aid department of the college they attend. The Addison Trust will make payment directly to that college in one lump sum in the name of the student recipient. The college will disburse funds for educational needs of that student throughout the college career of that student.

### Instructions to College

Colleges where Addison Scholarship funds are being spent will be instructed on how these funds are to be distributed toward the educational needs of the student. Specifically, Addison Scholarship funds can only be used for the following expenses:

1. Tuition and fees
2. Textbooks
3. Room and board

Each enrollment period, scholarship funds will be applied by the college to these three expense areas, in the order listed. Any funds remaining will be held until the next enrollment period for payment of these expenses. This pattern of payment will be continued until the scholarship funds are exhausted, or until the student graduates or stops attending college, but for not more than four years total. If a student changes colleges during payment of scholarship funds, the remaining funds will be transferred to the new college to pay for the above expenses. If scholarship funds remain after payment of student college expenses, any remaining funds will revert to the Addison Trust to be distributed in future scholarships.
